PROFILE

Third-year Computer Science and Engineering student at the University of Mitrovica "Isa Boletini" (GPA 9.20/10), building production software: internal systems at a national retail company and a website for a paying client in Germany. Focused on full-stack development and AI-driven systems that solve real business problems.

TECHNICAL SKILLS

Frontend React.js · Next.js 14 · HTML5 · CSS3

Styling Tailwind CSS · shadcn/ui · Bootstrap

Languages JavaScript (ES6+) · TypeScript · Python · C# · SQL

Backend Supabase · PostgreSQL · REST APIs · Node.js

Data Python · Pandas · NumPy · Scikit-learn · Matplotlib

Tools Git · GitHub · Vercel · Render · Vite

Methods Business-process digitalisation · Agile

EDUCATION

BSc Computer Science & Engineering

Oct 2024 – Jun 2027 (Expected)

Universiteti i Mitrovicës "Isa Boletini" · Mitrovicë, Kosovo

- GPA: 9.20 / 10.
- Relevant coursework: Web Development, Software Engineering, Databases, Business Intelligence, Operating Systems, Microprocessors & Microcomputers, Digital Electronics, Statistics, Computer Architecture.

High School — Social Sciences

2021 – 2024

Gjimnazi "Frang Bardhi" · Mitrovicë, Kosovo · GPA 5.0 / 5.0

WORK EXPERIENCE

Software Development & Digitalisation Assistant

Apr 2026 – Present

Petrol Company · Fushë Kosovë, Kosovo

- Build internal software tools used daily by leadership, HQ teams, and field managers across a national network of 30+ retail stations.
- Replace legacy manual workflows (spreadsheets + chat-based coordination) with structured digital systems running in production.
- Combine business-process analysis with hands-on full-stack development (Next.js, TypeScript, Supabase) to ship in-house solutions end-to-end.

Freelance Web Developer

Sep 2026 – Present

Atelier Kontinuum (Harald Wicht) · Balzhausen, Germany · kontinuum.biz

Bilingual DE/EN · HTML · CSS · JavaScript · Python · Render

- Rebuilt a painter's outdated WordPress site end-to-end in two weeks: a catalogue of 81 artworks with a zoomable viewer, a journal and a self-updating news page.
- Built an editing panel so the client adds paintings and journal entries himself, with no database and no paid services.

- Moved the domain from the previous agency with zero downtime; added SEO (structured data, sitemap, Google Search Console).

"He did an excellent job!" (Harald Wicht, client)

Data Science & Machine Learning Intern

Nov 2025 – Feb 2026

TecTigon Academy · Prishtinë, Kosovo

- Performed data cleaning and exploratory data analysis (EDA) on real-world datasets using Python, Pandas, and NumPy.
- Built a baseline sales forecasting model and benchmarked performance metrics (RMSE, MAE) for future model comparison.
- Created data visualisations with Matplotlib to communicate findings clearly to the engineering team.
- Collaborated in agile sprints — daily stand-ups, sprint reviews, consistent on-deadline delivery.
- Received a formal reference letter from CEO Erion Prokshi upon completion (available on request).

PROJECTS

LokalWeb — Multi-Tenant SaaS / WaaS Platform

2025 – Present

Next.js 14 · TypeScript · Tailwind CSS · shadcn/ui · Supabase · Vercel · LLM API · [lokal-web-one.vercel.app](#)

- Architected a multi-tenant platform designed for Kosovo small businesses (barbershops, restaurants, clinics) with a dedicated subdomain per business.
- Integrated an LLM-powered API to dynamically generate tailored business websites — going beyond static templates by producing per-business copy, structure, and content.
- Integrated Supabase for multi-tenant authentication and data management; deployed on Vercel with automatic deploys from GitHub.
- Applied component-based architecture with shadcn/ui and Tailwind CSS for a scalable, consistent design system.

Enit's Barber Shop — Business Website

2025

React.js · CSS · Google Sheets API · [github.com/VocaDev/Enit-s-Barber-Shop](#)

- Developed a professional website with an online booking form integrated with Google Sheets API as a lightweight backend.
- Implemented complete branding, legal pages (Impressum, Privacy Policy, Terms of Service), and a mobile-first responsive layout.

Islam Companion App — Full-Stack Web App

2024

React.js · Node.js · Vercel · Render · [islam-companion-app.vercel.app](#)

- Built a web app for daily Islamic practice: prayer and dhikr tracking, plus step-by-step wudu and prayer guides for beginners. React frontend on Vercel, Node.js backend on Render.

CERTIFICATIONS & ACHIEVEMENTS

Cambridge Advanced English C1 — Excellent · The Cambridge School, Mitrovicë · Jan 2023
